The section traversed by the Missouri, Kansas & Texas Ry. is very comprehensive. From St. Louis, Hannibal or Kansas City to Galveston or San Antonio is a stretch of over one thousand miles of territory, capable of sustaining a population many times that of the present. A thousand industries, soil of various degrees of fertility, a wonderful preduce of plants and crops, oil, gas and minerals are to be found. Peopled by eager, pushing, wide-awake citizens who believe in the future of the Southwest and see the virtue of encouraging enterprises of every description and outgetting more and better facilities, the opportunity is apparent.

of getting more and better facilities, the opportunity is apparent.

The Southwest is really in need of nothing save people. More met are needed—
YOU ARE NEEDED. There are vast areas of unimproved land—land not yielding the crops of which it is capable. The same thing in a different way is true of the towns. Few lines of business are adequately represented. There are openings for mills and manufacturing plants, small stores, banks, newspapers and lumber yards. The oil and gas fields of Kansas, Indian Territory and Oklahoma are practically new and offer wonderful opportunies for development along commercial lines. THE OPPORTUNITY IS NOW.

The M. K. & T has no lands for sale, we are simply interested in the upbuilding of the country. We believe in the Southwest, and know that with its present needs and opportunities; the prospects are brighter and the future more hopeful than in the older and more densely populated States. We want you to investigate conditions and satisfy yourself of the truthfulness of this.
